

The logo for FinnSonic features a solid blue square at the top. Below it, the word "FinnSonic" is written in a sans-serif font, with "Finn" in black and "Sonic" in blue. A horizontal blue bar is positioned directly beneath the text.

FinnSonic

FINNSONIC CAVITEC MULTI^{NEO}

Washing chemical for ultrasonic cleaning

cleaner • safer • smarter

SAFE AND **POWERFUL** CLEANING

Choose from a wide range of washing detergents to complement your equipment and cleaning needs.

FinnSonic offers complete process solutions to industrial cleaning with safe and powerful cleaning detergents.

NEW FORMULA:

SAFER FOR USERS, HARDER ON GRIME

- » Optimal for the removal of **machining fluids, oil, grease, chip residues**
- » Extensive material compatibility: **steel, cast iron, aluminum, brass, copper**
- » Good corrosion protection

CHOOSE THE RIGHT DETERGENT TO ACHIEVE THE DESIRED LEVEL OF CLEANLINESS

Cleanliness is proven to have a significant effect in production quality, efficiency and results. The right detergent reduces surface tension, reinforces cavitation and binds the dissolved contamination into the washing liquid. The quality remains high with the right control procedure and equipment.

HIGH PERFORMANCE, LONG BATH LIFE

- » Excellent low temperature performance 20-40°C
- » Strong demulsifying effect – **long bath life**
- » **Low residue** – even for one step processes
- » Dosing 1-6%, temperature 20–80°C
- » Concentrate pH 9,5
- » Package size 20 liters
- » Mildly alkaline detergent for ultrasonic and spray cleaning

FINNSONIC CAVITEC MULTI^{NEO}:

SAFE FOR USERS AND ENVIRONMENT

- » Substances that are safer to the user and environment
- » No special transport or storage regulations
- » Proven compatibility with FinnSonic equipment
